

C&C100胶囊分选抛光机

C&C100 Automatic Capsule Polishing Machine

► 介绍 (Introduction)

C&C100是一种具有分选功能的胶囊抛光设备。它不仅用于对胶囊和药片的抛光和静电消除，还可自动剔除装量轻微、空壳碎片以及体帽分离的胶囊。对所有型号的胶囊都能适用，无需更换模具。

C&C100 Automatic Capsule Polishing Machine is a multifunctional device that integrates capsule polishing and screening functions for the pharmaceutical and nutritional supplement industries. The machine can not only polish capsules and tablets efficiently, but also eliminate static electricity to ensure smooth operation. In addition, it has an automatic rejection function that can automatically identify and reject underweight, loose or broken capsules, thereby improving product quality and production efficiency.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	C&C100
输出容量 Output Capacity	pcs/min	7000
功率 Power	-	220V 50 /60HZ 0.8kw
外形尺寸 Overall Size	mm	900*600*1100
机器净重 Net Weight	kg	45
真空 Vacuum	m ³ /min	2.7
压缩空气 Compressed Air	mpa	30
