

C&C200立式胶囊抛光分选机

C&C200 Vertical Capsule Polishing Sorting Machine

► 介绍 (Introduction)

C&C200采用先进的螺旋技术设计，通过柔和的软刷机制，确保胶囊稳定、连续地向上推而不会造成任何损坏。该系统有效地将胶囊运送到所需的高度进行抛光，有效去除灰尘，同时提高其表面光洁度。值得注意的是，C&C200 提供全面的功能，可以 100% 准确地分拣出空胶囊、破损胶囊或未充满的胶囊。其多功能设计使其可以与任何胶囊填充机型号和金属探测器系统无缝集成，也可以独立运行，使其成为生产车间维护高品质胶囊产品不可或缺资产。

C&C200 is designed with advanced screw technology that ensures capsules are steadily and continuously pushed upward without causing any damage, thanks to its gentle soft brush mechanism. This system efficiently transports capsules to the required height for polishing, effectively removing dust while enhancing their surface finish. Notably, the C&C200 offers comprehensive functionality by sorting out empty, broken, or underfilled capsules with 100% accuracy. Its versatile design allows it to be seamlessly integrated with any capsule filling machine model and metal detector systems, or it can operate independently, making it an indispensable asset on the production floor for maintaining high-quality capsule products.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	C&C200
适用产品 Applicable Product	-	硬胶囊Hard Capsule 00-4#
外形尺寸 Overall Size	mm	828*488*1438
吞吐量 Throughput	pcs/h	Max. 300000
完成 Finish	-	Nice
电源 Power Supply	-	220V/110V 50/60Hz
