

DMD金属检测机

DMD Metal Detector

► 介绍 (Introduction)

医药金属检测机专门用于对精度要求较高的医疗保健品行业。它具有超高灵敏度、稳定可靠的性能，能够快速去除含有金属杂质的产品。适用于制药行业，例如药片、胶囊、粉末等含有金属杂质的产品。

The pharmaceutical metal detector is specially used in the medical and health care products industry with high precision requirements. It has ultra-high sensitivity, stable and reliable performance, and can quickly remove products containing metal impurities. It is applicable to the pharmaceutical industry, such as tablets, capsules, powder and other metal impurities.

► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	DMD
可调节角度 Adjustable Angle	-	30° - 40°
输入端口尺寸 Input Port Size	mm	150mm*100mm
管径 Pipe Diameter	mm	φ50mm
进料口高度可调 Input Height Adjustable	mm	800(Max+150)mm
出料口高度可调 Exit Height Adjustable	mm	350(Max+150)mm
检测灵敏度 Detection Sensitivity	mm	Fe φ: 0.6
		SUS φ: 0.8
