

# XCJ系列小型工业吸尘器

## XCJ Series Small Industrial Dust Collector

### ► 介绍 (Introduction)

XCJ小型工业除尘器是一种多功能解决方案，广泛应用于制药、食品和化学工业，可有效清洁设备和工业环境中的粉尘颗粒。该机器采用不锈钢和铝合金制成，非常适合收集无污染的粉尘，是各种生产过程中必不可少的设备。

XCJ 除尘器具有耐腐蚀性能并符合 GMP 标准，可确保有效回收收集的材料。此外，它还配备了消音器，有助于降低运行过程中的噪音水平，创造更有利的工作环境。

XCJ Small Industrial Dust deduster is a versatile solution widely used in pharmaceutical, food, and chemical industries to effectively clean equipment and industrial environments from dust particles. Constructed with stainless steel and aluminum alloy, this machine is ideal for collecting powder dust without contamination, making it an essential piece of equipment in various production processes.

With its corrosion-resistant properties and adherence to GMP standards, the XCJ Dust deduster ensures that the collected materials can be recovered efficiently. Additionally, equipped with a silencer device, it helps reduce noise levels during operation, creating a more conducive working environment.

### ► 技术参数 (Technical Parameters)

参数ITEM	型号TYPE	XCJ-I	XCJ-II	XCJ-III
吸气量 Air-breathing Valume	m <sup>3</sup> /h	360	600	900
最小真空目标 Min. Vacuum Target	mpa	19500	26500	32500
功率需求 Power Requirement	kw	1.1	1.5	2.2
外形尺寸 Overall Size	mm	700*460*1030	800*500*1200	9500*600*1400
机器净重 Net Weight	kg	62	96	126
